CUBAN RESOLUTIONS

Senate and House Expected To Soon Reach an Agreement.

CONFERENCE COMMITTEES TO MEET

Senate Resolution Not Considered Strong Enough by Some of the Members of the House Committee-Cause of Non-Concurrence.

Washington, March 5 .- The action

of the senate in voting to non-concur in the Cuban resolution passed by the house was the result of a division of sentiment in the committee on foreign relations of the senate, the majority holding that the house resolutions were not as strong as the senate resolutions, and that the language was in some respects ambiguous. This was charged especially with reference to the second clause of the house resolutions, wherein it is stated that "the only permanent solution of the contest, equally in the interests of Spain, of the people of Cuba, and other nations, would be in the establishment of a government by the choice of the people of Cuba." It was maintained during the argument in committee that under such a resolution this government would be committed to a settlement of the trouble by Cuba on the basis of an agreement of any sort with Spain that permitted Spain to still retain her control and domination of the island. The actual independence of the island was insisted upon as an essential feature of any resolution that may meet the final conenrrence of the two houses. The house will probably appoint a conference committee to-dry to meet the committee named yesterday by the senate, Messrs Sherman, Morgan and Lodge, and it is believed that an agreement will soon be reached and that resolutions looking to the freeing of Cuba will be adopted by both houses before the close of the week.

WILL PROCEED CAUTIOUSLY.

The President's Position on the Cuban Belligerency Question No Secret.

Washington, March 5.-What will the president do with the Cuban resolutions should they ever emerge from conference committees and reach him? The fact is, it is an open secret that the president and Secretary Olney are disposed to proceed in a very conservative manner in regard to Cuban recognition. It is well understood in congress that but for a knowledge of this fact, and a consequent indisposition to embarrass the executive, a joint resolution instead of a concurrent resolution would have been adopted by both houses. It is felt by leading members of the house that the president can be depended on to do what is proper. and | Gen. Collazo, who was at its head, that the action of the two houses in passing resolutions favorable to the Cuban insurgents gives him the endorsement of those bodies, should he deem it proper to issue a proclamation of belligerency. But will he take such a step? That question was put this morning by a United Press reporter to a number of prominent republicans and democrats in the house. The republicans claimed to have no knowledge of the executive's intentions, and said the only person competent to speak with intelligence upon the subject was Mr. Cleveland himself. The democratic leaders are equally uncertain. They do not believe that, under any circumstances, he will act upon the matter for several weeks, should be do so at

Plea of Opponents.

Opponents of the resolutions recall the promptness with which the Soanish government expressed its regret for the outrages in Barcelona on Sunday last; their payment of the celebrated Mora claim some months ago; the protection afforded by them to American property interests in Cuba and other evidences of a desire to placate the United States, and regret that circumstances forced them to take a position which in their opinion places this government in the attitude of embarrassing a friendly nation already impoverished financially and struggling in the throes of a civil war.

ELDUAYEN RESIGNS.

Duke of Tetuan To Succeed Him as Spanish

Minister of Foreign Affairs. Madrid, March 5 .- Senor Liduayen, who was recently appointed minister of foreign affairs in succession to the Duke of Tetuan, has resigned. A meeting of the cabinet was held last evening at which Senor Elduayen announced that he had tendered his resignation because it was considered desirable that the same minister who begins negotiations with the United States and other countries in regard to Cuba should complete them. It is understood that the Duke of Tetuan will succeed the retiring foreign minister and that he will take the oath of office to-day.

Universities To Be Closed.

At the meeting it was decided that the universities should be closed for the present. A demonstration was attempted last night by the students of the School of Medicine and a number of citizens who had joined them. They were dispersed by the police, but soon

Trampled the American Flag.

A group of university students and citizens who were attempting to make a riotous demonstration yesterday afternoon were charged upon by the police with drawn swords and were driven into near-by cafes and houses. A number of them took refuge in the university, where they trampled upon and afterwards burned an American flag. Sixteen of the rioters were taken into custody and will be severely pun-

FIERCE FIGHT AT BARCELONA. Students Attack the Police with Sticks

and Stones. Barcelona, March 5 .-- A large number of students carrying banners assembled yesterday at the doors of the university, where they were addressed by several speakers. The police attempted to disperse the gathering, but were resisted by the students, who met the officers with volleys of stones and other missiles. A charge was ordered and the officers advanced upon the students, who retired and took refuge within the university building, closing the doors in the face of the police. The latter finally forced an entrance in the rear of the building, but were met by the rector of the university, who ordered them to leave the premises at [once. The police retired and the students emerged, when they were again attacked by the officers and a fierce fight ensued, at the height of which a party of mounted gendarmes arrived and were greeted with cheers by the students. The commander of the gendarmes ordered the students to disperse, which they did upon his promise that they should be protected i against the police. In the encounter with the officers many persons were

The Seizure of the Mallory.

Washington, March 5.—The Spanish authorities do not conceal their disappointment that, in the capture of the arms on the schooner S. R. Mallory near Tampa, Fla, by the U.S. revenue cutter of that district, the men on the other schooner, which escaped, were not also taken, so as to constitute an armed expedition within the terms of the statute, but they are gratified that these needed supplies, which were seized by the United State authorities at Cedar Keys last August, bave already been kept from the Cuban insurgents more than six months, and will now have to be shipped in some other way, if at all. The arms captured consist of 200 rifles and about 500,000 cartridges. The Mallory was a portion of the first great Collazo expedition, which set sail some time ago. sailed from Tampa on Monday on the steamer Ardell for Cuba.

Paroled in Custody of Their Attorneys. New York, March 5.—The three men from the alleged filibustering steamship Bermuda-Thomas Nelson, chief engineer; James Howden, assistant engineer, and C. C. Taylor, chief steward -who were arrested on Tuesday and held as witnesses by the United States authorities, have been paroled in the custody of their counsel.

ITS ACTION CONSIDERED HASTY.

An English Paper Criticizes the New York

Yacht Club for Expelling Dunraven. London, March 5.—In its current issue the Yachting World accuses the New York Yacht club of having shown vindictiveness in the expulsion from membership in the organization of Lord Dunraven, when it was well aware that his lordship had written and mailed his resignation. The Yachting World expects, it says, that the yachting societies of Great Britain will express their opinion of the action of the New York Yacht club in no minced language, and insists that the Royal Yacht squadron, as backer of Lord Dunraven's challenge for the America's cup, is bound to take some action in the matter. The Royal Yacht squadron, the paper declares, cannot afford to have its leading member dealt with in such a summary manner without endorsing his expulsion or loudly protesting against it.

Pawtucket Opera House Closed.

Pawtucket, R. I., March 5.—Business complications at the Pawtucket opera house, coupled with poor business, caused the house to close last night. The Ullie Akerstrom company opened March 2 for the week, but has done a poor business and cancelled its performances. The house will be sold March 9 at a mortgagees sale.

B. & O. Receivership.

New York, March 5.-It is authoritatively said that there will be no additional receiverships for subsidiary lines of the Baltimore & Ohio railroad. The system will be at once provided with additional equipment. The report of Stephen Little, the expert accountant, on the condition of the company will be ready in a few days.

Crusade Against Tobacco.

Lincoln, Neb., March 5 .- The city council has adopted an ordinance prohibiting the use of cigarettes, cigars or tobacco in the city limits by persons under eighteen years of age.

Prof. Hammond's Experiments with a Common Horseshoe Magnet.

LIGHT AND SHADOW PRODUCED

Perfect Photographs of Hidden Objects, Far Superior to Those Obtained by the Cathode Rays, Secured by an Ordinary Magnet.

Baltimore, March 5.-Prof. Wm. C. A. Hammel of the department of physics of the Maryland State Normal school claims to have secured perfect photographs of hidden objects with the aid of an ordinary horseshoe magnet. The result of his experiments, he claims, are far superior to those attained through the use of the cathode rays, in that he secured a perfect photograph of the objects, light and shade included, instead of the rough outline as produced by the X-ray process. Prof. Hammel says the new photography is not due to cathode rays, but to a new force of a magnetic nature. In speaking of his experiments last evening, he said:

Magnet Did the Work.

"Being interested in the new developments of the so-called X-rays, I tried the experiment reported by Prof. Pratt of Chicago. Working under the most favorable circumstances, I found, after numerous trials with different exposures, that upon developing the plates they showned no signs whatever of having been affected by the magnet. then conceived the idea that if it were possible to make impressions upon a sensitized photographic plate it would be necessary to direct the force of the magnet toward the plate. I placed four soft iron nails in a heavy pusteboard box, and over the nails an extra rapid sensitive plate, film side up, and placed a double cover on the box. Over this I put a pine board one-half inch thick and upon this an ordinary horse shoe magnet. I left the apparatus for twelve hours in a dark room. So you see there was no possibility whatever of the plate's being acted upon by any force other than that possessed by the magnet. On developing the plate I obtained a sharp impression of the magnet, somewhat larger than the magnet used.

Light and Shadow Produced.

"I have made other experiments with interesting results. I have succeeded in photographing, or more properly, magnetographing, opaque objects, showing distinct contrast of light and shadow upon the negatives. This has never been done by means of the Xrays. Furthermore, I have obtained a perfect positive upon the same plate | elected in 1869. ENGLISH MECHANICS DETAINED. Efforts To Secure Their Admission To Set

Up Foreign Made Machinery.

Washington, March 5.—Secretary Carlisle and Commissioner General Stump gave a hearing yesterday afternoon to several attorneys representing cotton interests as to admitting into this country four machinists from England. These machinists were sent to this country by English manufacturers of cotton machines to set up the machines, which are imported in detached parts. Each man had a contract with the English firm, and they were debarred from landing by the immigrant bureau as contract laborers. The attorneys representing various cotton mill owners contended that only men familiar with the construction of the complicated machines could set them up. The labor organizations contend that to allow these men to perform such work would deprive American workmen of their just deserts. Among the attorneys engaged in the case was ex-Gov. Russell of Massachusetts.

ARCHBISHOP KENRICK DEAD.

The Late Distinguished Prelate's Remains To Lie in State at St. Louis.

St. Louis, March 5.—Archbishop Kain has sent telegrams to all distinguished churchmen in America, apprising them of the death of Archbishop Kenrick and asking their presence at the fu neral, which is set for Tuesday next from the cathedral. "I have asked for suggestions from Cardinal Gibbons and Archbishop Ryan," he said, "but will not alter the date of the funeral unless they so desire." The remains will lie in state at the cathedral all of Sunday and Monday. Cardinal Satolli, now in Denver, will participate at the funeral ceremony. As now arranged the papal delegate will officiate at the requiem mass. The archbishop will be buried in a lot adjoining that where Gen. Sherman is buried.

La Bourgogne Libeled.

New York, March 5 .- The Atlas line Steamship company, owners of the steamship Ailsa, which was sunk by the French line steamer La Bourgogne on Saturday last, have filed a libel in the United States district court against the Bourgogne in the sum of \$400,000 for the loss of the Ailsa and her cargo. Security will be furnished by the French line company to-day.

Gov. Greenhalge Passes Away Early This Morning.

UNCONSCIOUS FOR SEVERAL HOURS

The Bereaved Family Flooded with Messages of Condolence From All Parts of the Country-Sketch of Mr.

Greenhalge's Career.

Lowell, Mass., March 5.-Governor Greenhalge died at his home in this city at 12:44 this morning, surrounded by his family and physicians. He was unconscious from 5:30 o'clock last night, when he suffered a second stroke of paralysis, the first having occurred last Tuesday evening. His condition then was announced by the physicians as that of uraemic poisoning. While the governor's death was not unexpected its announcement was in the nature of a shock to the public and general and near friends and neighbors in particular. They can hardly realize that he, who was so bright and active but a few days ago is now lying cold in death. Men who have been his lifelong friends and neighbors, pay loving tribute to the memory of the dead governor. Judge Hadley-of the Lowell municipal court said: "Gov. Greenhalge's death in the zenith of a prosperous career is another illustration of the repeated quotation 'Death loves a shining mark." Messages of condolence are pouring in upon the bereaved family to-day from all parts of the country, from governors, congressmen. United States senators and other distinguished persons.

FREDERIC T. GREENHALGE. Brief Sketch of the Late Governor's

Active Career. Frederic Thomas Greenhalge was born in Clitheree, England, July 10, 1842. He came to this country with his father, William Greenhalge, who went to Lowell, Mass., in 1844. He passed through the grammar and high schools of that city and entered Harvard college. Mr. Greenhalge did not complete his college course. He, however, received his degree in 1870. In March, 1863, he began the study of law. Later he tried to enter the army, but his delicate health was a bar to his enlistment in the regular service. He served in the commissary department, and in 1864 had charge of a company of colored men in defense of the commissary stores at Newberne. After the war he resumed his law studies, and was admitted to the Middlesex bar in 1865. In 1868 he was elected to the common council of Lowell, and re-Lowell by large majorities. In 1884 he was sent as a delegate to the republican national convention, and in 1885 he was elected to the legislature in a democratic district.

Congressman and Governor.

In 1898 he was made city solicitor of Lowell, and in the same year was chosen a member of the fifty-first congress. In congress Mr. Greenhalge at once took high rank as a debater and won high praise from his party associates by his conduct of contested election cases. He was elected governor of Massachusetts to succeed Gov. Russell in 1893, and was re-elected in 1894 and 1895. There is a pathetic significance in the fact that the last official act of Gov. Greenhalge was his message to the legislature on the 24th of February announcing the death of ex-Gov. Robinson. Mr. Greenhalge was married in 1873 to Isabel Nesmith, whose father, John Nesmith, was lieutenant-governor of Massachusetts in 1862. He had three children, Frederick, Harriet and Richard. Mr. Greenhalge was one of the founders of the Martin Luther club, which later included many prominent business and professional men of Lowell. He was also president of the People's club, a member of the Central club, president of the Lowell Humane club for three years, and was a trustee of the Rogers Hall school for girls, the Westford academy and the Lowell General hos-

Kattowitz Mine Horror.

Berlin, March 5.-The latest reports from Kattowitz are to the effect that fifty corpses have just been taken from the pit, three miners have been rescued alive and the fate of ninety-one others who were in the mine at the time of the explosion is unknown.

Rushing the Raines Bill.

Albany, March 5.-It is now the plan of the republicans to pass the Raines bill in the senate on Saturday next. The bill will be discussed to-day in the committee of the whole in the senate, and the debate will be a decidedly interesting and lively one.

DELAWARE SENATORSHIP.

Senate Enters Upon the Dupont Case-May Last for Weeks. Washington, March 5.-The senate

has entered on the consideration of the

question whether Henry A. Dupont has been legally elected United States senator from the state of Delaware or not. Although the facts in the case are conceded on both sides of the chamber, the legal point is one on which the two political parties take opposite views; and on that opposition hinges a dispute which may occupy the time of the senate for weeks to come. It seems that in the Delaware joint assembly on May 9, 1895, Mr. Dupont received fifteen votes of a total of thirty cast. But as to one of the thirty votes, it is contended on the part of Mr. Dupont, that it was illegal and void, it having been cast by Mr. Watson, a senator who had on the death of the governor, succeeded to the office, and who could not, as claimed by the republican members on the committee on privileges and elections, legally or constitutionally act as senator. In that case the total legal vote cast being only twenty-nine, Mr. Dupont would be entitled to a seat in the senate. The contention on the part of the democratic members of the committee is that the exercise of the duties of governor by Mr. Watson did not divest him of his rights as a state senator, and that, at all events, that was a question to be determined by the senate of Delaware, not by the senate of the United States. Mr. Mitchell, rep., Ore., chairman of the committee on privileges and elections, will resume his argument to-day in favor of the right of Mr. Dupont

GREAT BRITAIN'S CASE.

Venezuelan Minister at Washington Considers It Very Weak.

Washington, March 5 .- At the Vene zuelan legation the statement of the British case was declared to be pitiably week and easily disposed of. Minister Andrade said it did not contain any attempt which had not already been fully met and disproved in documents furnished to Secretaries Bayard and Gresham by the Vonezuelan government. All the arguments now presented by Sir Frederick Pollock, which had not been included in Lord Salisbury's letters of November 26 last, leading to President Cleveland's special message, had already been abandoned by British statesmen. It was preposterous now for Great Britain to attempt to go behind the treaty of Munster to show that the Dutch had settlements in Guiana, for up to that time Holland was a Spanish dependency, just as Guiana was. With the recognition of the independence of the Dutch by the treaty of Munster in 1643 the Essequito became the eastern boundary of Spanish possessions and by the treaty of Utrecht, in 1713, England obligated herself to enforce that boundary. The Dutch colonies did not pass to England until 1796, and from that time until 1836 (forty years) every English map, encyclopaedia, history or other work bearing on Guiana gave either the Essequito or the Pomaron as the west ern English limit. Barima, at the mouth of the Orinoco may have been occupied by the Dutch when Spain was the sovereign of Holland, as shown by early maps, but Minister Andrade notes that Sir Frederick Pollock has found no map giving the Dutch that point after the treaty of Munster. No fear is expressed by the members of the legation as to the result of the Venezuelan commission's labors. They are confident that the decision will be entirely in conformity with the Venezuelan contention.

Italian Troops in Full Retreat Toward Asmara—Baldissera Takes Command— Reports Say the Fighting Was Terrific.

Rome, March 5.—Advices from Massowah received by the government announce that Gen. Baldissera, the newly-appointed commander-in-chief of the Italian forces in Africa assumed command yesterday. The government has instructed the military advocate general to examine into the conduct of the Abyssinian campaign by Gen. Baratieri and determine whether or not the latter shall be arraigned before a council of war.

Conviction Would Mean Death.

It is reported that Gen. Baratiera upon his return to Italy will be tried under articles 72 and 88 of the military code, which fix the punishment for officers who abandon their posts before the enemy at degradation to the ranks followed by death. The charges against Baratieri are based upon his own admission that he left the field while the troops under his command were fighting.

The Fighting Was Terrific.

Long official dispatches from Massowah under the date of March 3, give technical details of the positions and movements of the Italian troops engaged in Sunday's battle with the Abyssinians. According to these advices the troops in the morning occupied two ridges in the vicinity of Adowa, but they were compelled to abandon these positions by immense phalanxes of the enemy. The fighting was evidently of a terrific character and the retreat of most of the battalions was a mere rout. The dispatches conclude that no news has been received of Gen. Deloamida's brigade nor of Gens. Arimondi and Albertone.

Italians in Full Retreat. London, March 5.—A dispatch to the Central News from Rome says that of the 247 officers under Gen. Baratieri, who took part in the battle against the Abyssinians on Sunday, only forty returned. Among the killed were Goz. Alberton and Col. Galliano, the latter of whom was in command of the Italian garrison which defended Makalle when that place was besieged by the Abyssinians. Gen. Arimondi was seriously wounded. Gen. Dabormida, with the remnant of his brigade, succeeded in rejoining Gen. Baratieri after having fought their way through the enemy's lines. The Italians are in full retreat

towards Asmara. Students Demonstrate at Naples.

Naples, March 5.—A party of students attempted a riotous manifestation here last night against the policy pursued by the government relative to the African campaign. The mob was dispersed by the police, but not until after a severe encounter. Many of the rioters were arrested.

NEW ENGLAND FLOODS.

Traffic Resumed on the Boston & Maine Railroad's Western Division.

Boston, March 5 .- Dispatches received from the inundated district of New England at the office of the Boston & Maine railroad in this city are to the effect that traffic has been resumed on the western division and that the southern will be clear within the next twenty-four hours. Advices from General Passenger Agent Boothby of the Maine Central say that his line has re-established communication between Portland and Bangor. It was learned that up to late yesterday afternoon not a bridge on the entire Boston & Mame system had been carried away or had shown any sign of weakening under the pressure of water and ice incident to the freshet.

MISS JOHANNA'S HAND.

Expert in Palmistry Studies the Chimpanzee's Lines.

She Is Intelligent, But Has a Murderous Disposition-Indications Are That She Would Not Hesitate to Kill with Cold Cruelty.

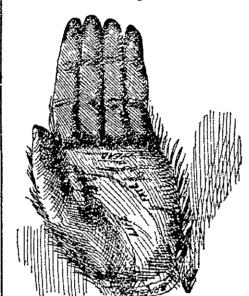

Since Johanna, the famous chimpanzee of the Central Park menagerie, drew a picture of herself and wrote letters to her friends she has become the object of study on the part of men of science, not a few of whom have visited her quarters in the Arsenal to ascertain, by her appearance and conduct, what it might be possible for her to do next. The general deduction is that Johanna is capable of doing almost anything that is good, together with a great many things that are wicked. For instance, it is believed that Johanna would commit cold-blooded murder, or, in a spasm of uncontrollable passion, treacherously assault her best friend.

As a matter of fact, says the New

York Herald, Johanna's best friend is her keeper, McKay, and he says that he will always trust Johanna with his life. While acknowledging this, the keeper will not allow you to go within four feet of Johanna's steel bars, because her reach is long and her mind, if she has one, is constantly bent on destruction. She will laugh, sing, danc--almost speak-but she will tear to shreds that which you will give her. no matter , w friendly the motive. With McKay it is different. Johanna is obedient to his commands. She is willing at all times to do what he wishes and when yesterday it was sought to read Johanna's traits by the lines in her hand, she submitted. This was because McKay held her hand, and because she felt assured that no hostile intention was contemplated.

Behind McKay stood a palmister, Mlle. Eleonore Panurge. It was Mlle. Panurge's first experience in the reading of character in a being not of the human family. The palmister at first scouted the idea that she would find anything at all in the chimpanzee's hand that would denote traits of any kind, but before her examination was :ompleted she confessed that there were nany things that surprised her.

"I find things that amaze me," she aid. "I look at the palm and I look at

"They are wonderful," she said. "I see the M and N, and both are in their proper places. These two letters, so clearly defined in the left hand, mean great things in the ordinary individual. In this wonderful beast they must mean more. I cannot say that I believe in the theory of evolution, but I am at a loss to understand why these lines should so closely resemble, in shape and position, the ones I have found in many highly intellectual persons. Below the ball of the thumb, and running directly across the hand, I find the M. Many persons think that this letter in the hand stands for marriage. That is an absurd and ridiculous fancy. To the contrary, I will say that the deeper set is the M, the less inclined the sub-

"Johanna lacks refinement. There is no question about that, but there is no question, at the same time, that she is extremely sensitive. Both of these properties are indicated in the lines which border on the side of the hand opposite the thumb. The width of the lines shows Johanna to be coarse and the brevity of them is evidence of her sensitiveness. She will insult, but will not be insulted.

"In those long ringers (almost twice as long as any others I have seen) I see power and originality, together with dangerous qualities. She has the fingers of a pickpocket and a tyrant. Imagine her shaking that long radex at you; contemplate the alacrity with which those four fingers could fathom the depths of your pockets; think what a cruel and relentless grasp she

would retain on an enemy! "The formation of the ends of her fingers is in her favor, to a certain extent, because they taper. Unlike the tiger or the leopard, she would stop her mangling after being satisfied that she had conquered. I cannot say that I am in love with her thumb. It is too short and insignificant, and is set too far back on the hand. We look for principle in the thumb Johanna has no principle. I think that little thumb is her weakest point. If the last joint were long in comparison to the other joints of her fingers I might forgive her, but such a contrast cannot be overlooked. I would advise her keeper to be careful.

"I have noticed that immense hollow in the palm of Johanna's hand. She cannot get rid of it, even if she were to the hand almost constantly closed, and free. try. It comes from a habit of keeping it shows that her nervous tension is great. It argues well for the activity | TAKEAPILIA TAK

UNINVITED GUESTS.

Presidential Receptions Are Assuming a Democratic Phase of Late.

Official receptions at the white house are becoming each year more serious and intolerable impositions upon the hosts and the invited guests, and it is thought that some method for inspecting cards of invitation will soon be devised. Each winter the president and Mrs. Cleveland give four card receptions at night. The first in honor of the diplomatic corps, the second in honor of the army and navy, the third in honor of congress and the fourth to the general public. At each of these receptions the wives of the members of the cubinet assist in receiving, and back of the line stand 200 or 300 specially invited guests. Invitations are sent to the entire official world of Washington and to several hundred persons, more or less, who have no official positions. Members of the receiving party and other personal friends of Mr. and Mrs. Cleveland receive with their official invitations a little red card, which permits them to drive into the grounds by the southeast gate and enter the executive mansion by a private door at the south front. All others must approach by the main driveway and enter the little narrow north door and file into the dressing-rooms, and thence to the blue room, where the receiving party stands to greet them. For a great many years it has been the custom not to require the presentation of cards of invitation at the door, and the result has been that everybody who wishes to attend one of these receptions does so and takes with him anywhere from one to half a dozen guests. This is the real cause of the constant complaint that more persons are invited than can be accomposated in the spacious rooms of the white house, and it is an imposition against which many presidents have rebelled, but to which none has had the temerity to apply a remedy. Every Tom, Dick and Harry in Washington who desires to get a glimpse of what is generally called "social life" crowds into the white house and makes himself as much at home as if he were specially invited.

Recently the uninvited crowd at the reception given to the army and navy was greater and more democratic than usual. The crush was awful, and mingled with the diplomats, the army and navy officers, the jurists and the statesmen were the shopkeepers and less deserving people, who went to the white house in spite of he fact that they were not invited, and who, while they looked and behaved as well as the more distinguished guests, must have felt that they were enjoying stolen sweets. A good idea of hos the Washington public regard the exclusiveness of these card receptions is afforded by the remark of a handsome, gentlemanly-looking citizen who was standing in the great crond outside of the door the other night awaiting his chance for admission. Looking about him at the men and women in full evening dress he said to his companion:

"Charley, I believe we ought to have worn our dress suits." There were hundreds of people within the brilliantly lighted rooms who did not wear their dress suits, and by actual count there were more than two score of women wearing their bonnets, and at least half of that number with their street coats under their arms, unibrellas in their hands and gum shoes on their feet. They went down the line of the receiving party, were announced with great formality by Col. Wilson, and then wandered about through the flower-bedecked rooms into the conservatory and the east room, listened to the Marine band playing sweet music, apparently as much at home as at a church sociable in Jayville. A large number of these women were accompanied by halfgrown children, who wore their street clothes and stood about abashed at the pomp and glitter of the occasion. At least one gentleman paid his respects to Mrs. Cleveland and the other members of the receiving party while wearing his storm overcoat and carrying his hat, and appeared to regard himself as just as good as anybody who was more suitably dressed. When at 11 o'clock the band played "Hail to the Chief," and the receiving party, headed by the president and Mis. Cleveland, made the circle of the east room, much as the prize animals do at a county fair, the men and women and boys and girls crowded as close as they could get to them, stared in their faces, and when the procession passed through the corridor and up the stairs out of sight, they reluctantly sought the outer air

Gladness Comes

With a better understar ng of the VV transient nature of the any physical ills which vanish before proper efforts—gentle efforts—pleas, tefforts rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you pur-chase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with be well-informed everywhere, Syrupof

Elephants on Shipboard.

A most exciting incident happened during the voyage of the Hamburg-American steamship Persia, which reached New York recently. There were two clephants, named Pilot and Albert, on board. By some means they broke their chains, and as soon as they gained their liberty a terrific fight between them ensued. They trumpeted loudly, and having lashed each other with their trunks, used their tusks in savage attempts to gore each other. Everything in the part of the ship where the clephants were struggling was smashed to atoms. At one time they fell against the side of the vessel with such farce that the blow shook the entire ship. Each threw the other repeatedly. Albert at last reared on his hind legs and fell across Pilot, crushing him to the floor. While pinned down, Pilot succeeded in piercing Albert. The infuriated brutes were finally separated after a struggle of two hours.—Tit-Bits.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Dearness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

HOLMES TO BE SENTENCED. His Lawyer Will Appeal to the Pardon

Board as a Last Resort.

Harrisburg, Pa., March 5 .- Gov. Hastings, now that the supreme court has affirmed the verdict of murder in the first degree in the case of Herman W. Mudget, alias H. H. Holmes, found guilty in the Philadelphia court of over and terminer of the murder of Benjamin F. Pietzel, will set a day for the doomed man's execution. This he will do just as soon as the papers in the case arrive from the supreme court, which may probably reach him to-day. The supreme court's opinion, which was delivered by Justice Williams, overrules all the assignments of error and affirms the judgment of the lower court. It holds that no substantial error was pointed out, and that the evidence fully sustains the verdict. His counsel will appeal to the pardon board as a last resort.

Washington, March 5.—The members of the naval affairs committee of the house of representatives have found it hard work to "get together" on the naval appropriation bill. The committee was in secret session last evening, but no definite result was reached. The Orator's Inspiration.

Our orator gazes with far-searching eye. He is the poet in prose, the musician who plays on men, the painter, in words, of thoughts, sentiments, passions, ideas. His colors live and burn, for they are drawn from men's hearts. To him the glory that beckons on from height to height and then again on and on till the eye wearies, is the idealthat which men pray for, struggle tor, travail for, yet never grasp; but are the nobler for having aspired to. As the eye follows hill after hill that the falling sun gilds, and then rests unrested because the gold has turned to black, so the orator must follow hard after the ideal even till the night cometh. For him the breath of the pine is wine, and the strength of the forest makes strong his heart. The broad, clear ranges of space widen his mind. the pure azure clarities his vision, and the distant rim of earth and sky makes far-sighted and keen the eyes of his soul.-William F. Must Use the Knife.

Said the Surgeon, but Dr. David Ken. nedy's Favorite Remedy Was Taken

and the Knife Avoided. The Union and Advertiser, of Rochester, N. Y., recently published the following interesting account of how William W. Adams, of 127 South avenue, that city, was saved from a painful operation by the use of Dr. David Kennedy's Favorite Remedy.

Mr. Adams said: "Three years ago I was taken with kidney disease very badly; at times I was completely prestrated; in fact, was so bad that the day was set for the doctors to perform an operation upon me. But I decided I would not submit. I had been put in hot water baths and, in fact, nearly every means was tried to help me. Upon the day set for the operation I commenced the use of Dr. David Kennedy's Favorite Remedy, and from that moment began to gain, and it was not long before I was entirely cured and have had no return of the trouble since. My weight has increased and I never was so well as I am now. I have recommended

DR. DAVID KENNEDY'S to many people, for it saved my life."

In speaking to Mrs. Adams, she said: "About a year ago I was in a very feeble state of health, being completely run down. I had doctored considerably, but without permanent relief. One day one of my neighbors advised me to take Dr. David Kennedy's Favorite Remedy. which I did. My trouble was dyspepsia, and for a long while I was unable to be about at all; but after taking a few doses I was completely cured, and now enjoy good health."

Hundreds of men and women with that run down condition, unable to work, have recovered health and strength through this remarkable remedy. It purifies the blood, stirs the liver and kidneys to a healthy action. In cases of rheumatism, kidney, liver and urinary troubles, it is a well known specific.

Its action is unlike any other external remedy, as it never drives the one one asset to the Internal Organs. Its properties go to the diseased part and separate all the poisonous and corrupt humors through the perspiring vessels to the surface, and eradicates the disease from the system.

It is warranted to cure the worst cases of Old Sores, Ulcers, Fever Sores, Scrofula, Salt itheum, Eczema, Sore Breasts or Nipples, Bolis, Scalds, Burns, Cuts, Bruises, Fistula, Piles, Corns, Bunions, Chilblaine, Frosted Feet and all cutaneous diseases on mau and beast. It acts like magic on horse flesh in curing Scratches, Mange, Old Sores, Cuts, Bruises, Burns, Galls, Chafes, &c.

It has a larger sale than all other salves and outments put together, because it cures and gives satisfaction, or your money refunded.

HOW THE PEOPLE WERE BUNCOED Notice Published in all the Dally Papers of this City, Feb 24th and 25th, by Mayor Stansbury.

Notice is hereby given that on fuesday, Feb. 25th, 1896, an oppor tunity will be effered to the TAX PAYERS of the city of Middletown to VOTE on the proposed amendment to the city charter relating to the elections, and that the action of the Mayor will be governed by the RESULT OF THIS ELECTION. either for APPROVAL or DISAP PROVAL.

For such election there will be ap pointed two Republican inspectors and two Democratic inspectors, one Republican clerk of election and one Demogratic clerk of election.

Ballots will be furnished FOR the proposed amendment and AGAINST the proposed amendment, and no written or mutilated ballots will be unted.

Taxpavers only will be allowed to wote, the last tax roll to govern.

Polls will remain open from 2 o'cleck p. m. until 8 o'clock p. m., on Tuesday, Feb 25th, at the Corporation Rooms, on Centre street.

W. K. STANSBURY, Mayor.

RESULT OF VOTE-FOR THE BILL 157; AGAIXST THE BILL 411.

From the New York Tribune, Feb 23th

It never pays to practice sharp politics for partisan ends.

The party that takes advantage of temperary ascendancy to perpetuate itself in power never succeeds in its purpose.

No party can afferd to trifle with the people, and almost any party is liable, if given rop: enough, to hang

THE SINGLE ELECTION BILL

The opinion of Wm. Vanamee, Beq, on the single election bill, is printed in full in another column of this paper. The learned counsel discusses at some length. Our readers can read and digest at their leisure. But the Argue has it to say that there is a side to this contention which Mr. Vanamee has not tou hed upon and it this: Twice the people of Middletown have assembled in mass meeting, and repudi ated this bil after which, in response to, and in compliance with, Mayor Stansbury's preclamation, they again, as taxpayers, repudlated it by a practically unanimous bailot, In that proclamation the Mayor pledged his personal and officia; word to abide by the result; but he signed the bill, and by this act spring elections have been abolished in Middletown. We denounce this as government by usurpation, as a rule in defiance of the popular voice, as un-American, as something which might be expected to happen under despotle rule, but in this Republic,

All effort to side track the real issue of the people having been denied their voices, by published optoions as to the question of constitutionality or unconstitutionality of this measura, will fall stillborn upon an outraged community.

We print the Mayor's proclamation at the head of this column.

FIGHTING FOR HOME RULE.

In its war on Tom Platt's political methods, the New York Tribune is doing splendid work, work which strongly reminds us of that paper in the days when Horace Greeley, the great commoner of juvrnalism, guid

ed its utterances. It is most inspiring to find this leading Republican journal doing such vigorous work in behalf of home rule in cities and in opposition to Platt's policy of centralization and

government by commissions. Time was when the Republican papers hereabouts looked to the Tribune for inspiration and direction. No so to-day. This was in the nobler days of the party; was in the days when the party was uncorrupted by Platt and Plattism; was in the days when principles were feld above bosses,-were of more moment than place and plunder. Now the e papers get their directions from Tom Platt and are servile tools to do his bidding, no matter what his orders,-as witness their championship of his scheme to despoil the small cities of the State of their inalienable privilege and right of domestic elections, the

home rule. They didn't wait to consuit the people. They didn't ask them for their consents, but just took their orders and went ahead as if the matter was no concern of the peo-

The Democrate gained one Super. visor in Ulster county,—not much to be sure, but every little helps.

There were Democratic gains all over the State on Tuesday. These are straws showing the direction in which the political wind is blowing. The leaven of discontent with boss ru'e, with Platt's plans for entrenching the party in power, is surely working and the day is not far distant when there will be a complete revolution in political sentiment, the bosses will be turn d down and the people will again rule.

Mr. Vanamee's opinion of the constitutionality of the single election bill, even if correct, does not alter the situation so far as the case stands between the people of Middletown and those who forced upon them a change against which they protested, and a set of city officials they did not want. In fact one of the most exasperating features of the whole business to many Republicans is that it deprived them of the opportunity of expressing their opinion of these men through the medium of the ballot.

FORCED ON A REEF

The Poughkeepsic Steamer J. L. Hasbrouck Stranded at New Hamburgh,

BY UNITED PRESS. NEWBURGH, March 5-The steamboat Jons L Hasbrouck from Poughkeepsie for New York was forced on a reef by the ice while making a landing at New Hamburgh. A portion of the after hull was stove in causing her to careen and damaging some freight. Her twelve passengers reached shore easily on the ice. The starboard side is submerged to the

PROBABLE MURDER IN PATERSON

A Young Woman Found in a Vacant Lot Byl ig from a Wound in the Head

Paterson, March 5 -Miss Mamie Sullivan, aged thirty, a music teacher, was found dying in a vacant lot at 9.30, last night, and died at 2.30, this morning, from a blow above the right ear. A targe coupling pin was found near the spot.

It is believed she was murdered. Others say she was struck by an electric car and staggered to the lot.

The city is considerably excited. The man who found Mamie Sullivan has informed the Chief of Police when within a block of the spot he passed a tall man running.

DELAWARE HOSE CO'S WRATH AP-PEASED.

Exenerated From the Charge of Gam. bling by The Board of Trustees.

Explanations having been made by President Carley, as to the meaning of his remarks reflecting upon Delaware Hose Co., which he charged with making big gas bills by carrying on gambling in the hose house, the investigating committee has reported a satisfactory adjustment of the matter, and submitted a resoluion expnerating the company, which was adopted.

The President's explanation of his charge of gambling was that between 11 and 12 o'clock at night he had found members of the company in the house playing cards and pool, and the gambling consisted by the losers of the games paying five cents into the company's treasury.

This kind of gambling appears very harmless beside the kind that has gained considerable notoriety for Port Jervis.

OBITUARY.

William C. Warring

Mr. William O. Warring, a well known farmer of New Vernon, died Wednesday morning auddenly. He came into the house and suddenly fell to the floor unconscious.

Death came an hour later, the cause being a ruptured blood vessel, Mr. Warring was born near Thompsonville, Sullivan county, in 1826. He became a farmer and was piano for his use. It is being set up held in high regard by all who knew him. He was a man of the strictest ntegrity, and a member of the M. E. Church, of Liberty.

Mr. Warring married Miss Eliza Van Benschoten, about forty years ago, in the vicinity of Thompson-

Eleven children were born to them. eight of whom are living, two sons

and six daughters. One brother, Mr. Eleazer Warring, ives in the west, and one sister, Mrs.

MRS. ADLAI STEVENSON.

Just Elected President of the Daughters

of the Revolution. Mrs. Adlar E. Stevenson, the wife of Vice-President Stevenson, v ho has just been elected president-general of the Daughters of the American Revolution, is fitted in every way for the signal honor that has been conferred upon her by her patriotic friends. The Danghters of the American Revolution was organized in Washington in 1890, and has a membership of 10,000 in 42 states. It is one of the nost important women's patriotic societies in the country. Its conditions of cligibility to membership are as follows: "Any woman may be eligible for membership who is of the age of 18 years and who is descended from an ancestor who with unfailing

loyality rendered material aid to the cause of independence as a recognized patriot, as a soldier or sailor, or as civil officer in one of the colonies or states or of the united colonies or states," provided the applicant be otherwise acceptable to the society. Mrs. Stevenson was married to Mr. Stevenson in 1866. She was Miss Letitia Green, of Danville, Ky., the daughter of a Presbyterian minister, who was the president of Center college, in Danville. At that time this was the principal educational institution in the state, and turned out such good men as T. W. Crittenden, John Young Brown and Senator Blackburn. Adlai E. Stevenson, then a young man in McLean county, Ill., decided he would go to Danville for his education, and at a reception in the house of President Green he met his future wife. Two years later Dr. Green died, and Miss Letitia came up to McLean county to live with a sister who had married Matthew T. Scott, and the acquaintanceship began in Kentucky was continued in Illinois, and resulted in marriage. Mr. Stevenson had won a prize, for his wife not only brought him great beauty and a sweet disposition, but a head that has helped him consistently through hard work to the very high position he now occupies. Mrs. Stevenson is one of the most popular women in Washington society, and new honors will add little to the high esteem in which she is already held.

Mr. and Mrs. Ballington Booth Decline to Lead an Insurrection.

Ballington Booth and his wife have retired from the command of the Salvation army in America. Eva Booth has been placed in command tempo narily." Mr. and Mrs. Booth accepted their dismissal very quietly. They were asked if they would go to England or remain in America. "We will remain lare," said the ex-commander. "We are American citizens, our children are Americans, and we do not intend to go to England."

The New York World says that Ballington Booth was offered the leadership of an independent American Salvation Army. The brigadiers, adjutants and majors whom he had created in all parts of the country besought him to become their general. Ballington Booth retired for a short

time to his private quarters, accompanied by his wife, who has been by his side during all the exciting scenes. They locked the door. They knelt down and prayed for strength. The emissaries came again with their tempting offer. He met them calmly and firmly. He listened to their address, the pictured glories of future independence and great results for the cause of re-

"It cannot be," he said. "I thank you, dear friends, for the honor you have tendered me, the confidence and the trust you have shown me, but I must decline. Mrs. Booth and I will quietly retire from the army in which we have labored so long. Good-by and God's blessing rest upon you!"

Unquestionably a decided anti-English feeling has strongly manifested itself in the ranks of the Salvation Army.

It is claimed by many salvationists that if the commissioned officers of the army in America should decide to rebet against English domination, and summon to lead an American Salvation Army Sallington Booth and his wife, they will willrigly respond.

COUNTRY AND CITY LIFE.

The Constant Drift of Population to the Urban Centers.

Farm life at its best is quiet, uneventful, elementary. It gives broad play to the simple energies, but calls for no burst of supreme power, offers no field for the display of imagination, learning, artistry, creative genius. The farmer may be a student, a thinker. even a profound scholar; but he never feels the fine stimulation caught from congenial or opposing intellectual forces. He reads and thinks and is hilistine. He feels his condition and meets it with bourgeois calmness. He sends his sons to college and makes lawyers, professors, ministers or brokers out of them. He rarely thinks about the other side of the medal or considers the vast freedom, the broad immunity of his rural life, what cares he is escaping, what strains, what rendings, what cataclysms. He would be surprised, if not indignant, were he told that his life is really the dream of the poet.

But is it necessary to check this tide of rural life on its way to the already over-congested urban cities? How shall it be done? It would seem that here is a task for our educational engines, our churches, schools, colleges, newspapers and magazines. Life in this world is absolutely dependent upon agriculture. Every day brings us closer to a condition which must enforce a far more intelligent agriculture, and consequently a far more intelligent rural life than now exists. The equilibrium between city and country life must adjust itself in a right or a wrong way.

The right way is through education which will give an enlightened view of life's obligation to Mother Earth. Certainly the workers who make the staples, who furnish the food and clothing, who give the fuel to the my riad engines of human life, are the most importent factors of both progress and stability. Education which urges the imagination of young people away from duty rather than toward it is evil education. The farmer lad and his sister should be taught to love the farm life and to make it brighter, sweeter, better. Education rightly directed will reverse tendencies and reflect the rays of ambition, so that the safe equilibrium between city and country life will be easily maintained.—Chautauquan. SOFTENED THE PRIZE FIGHTER.

fils Fellow Passenger's Affliction Entitled Ulm to a Seat.

A pathetic incident occurred in a Broadway cable car one ever ng recently. Two men boarded the ear at Cham Lers street. They were broad-shoul dered, athletic-looking men, and one familiar with professional athletics would have recognized in one a ball player and the other a well-known prize fighter. The men were chatting and did not pay much attention to the way they were jostled as the car filled up rapidly. It was early in the evening, and the theater crowd was moving. At Tourteenth street the car stopped and two young women got on. The: were handsomely dressed and had a general look that would cause one to take them for actresses. They were at ence recognized by the men mentioned. The two men sprang to their feet and greeted the soung women warmly The car was illed and mary were standing. Just as the pugil'st got on his feet a man who was standing, pushed a friend gently into the seat just vacated. The pugilist turned angrily and laid a strong hand upon the man who had just seated himself, and said, in a firm voice.

"Excuse me, sir; I meant that seat for this lady."

It looked ominous to those who saw the gleam in the eye of the pugilist. The man addressed said hastily:

"I beg your pardon. Excuse me." Even as he spoke he was trying to rise, but as he did be felt in front of him in uncertain manner. The pugilist looked searchingly into his face, and then caught him by the shoulder, firmly, but gently, and pushed him back into the seat, saying:

"That's all right, old man; you keep the seat."

Then he turned to the young woman and said, quietly:

"You'll have to stand, the poor chap's blind."—N. Y. Tribune.

Ice from the Upper Alr.

A Yankee furmer in Brazil, who longed for the cooling liquids of his native land and was unable to obtain them in that trop ca' country, has utilized a kite for the purpose of obtaining ice. He fills a tin can with water and sends it to the height of three miles, where it is promptly frozen. After a sufficient interval the kite is rapidly hauled in and the cake of ice is secured. The inventor is so pleased with his toy that he new proposes to send up a kite 150 feet long by a steel wire cable. Under the kite will be suspended a pulley, over which runs an endless chain bearing cans attached to hooks. The cans will be filled with water, and the speed of the belt upon which they run will be regulated so that the topmost cans will be converted into ice sufficiently hard to stand the downward journs y. This is certainly the most original ice machine of which we have ever heard. - South American Journal.

A Weasel's Hypnotic Power. A London correspondent writes: "A

friend on whose word I can rely told me the following: He saw a lark flying above the turnpike road, fluttering some four or five feet above the ground in evident distress. As he looked he saw a weasel in the middle of the road, waiting for the bird to come down. This it did, falling helplessly close to the animal, which killed it and carried it away. This incident seems to show that a weasel has some fascination in his eye."--Detroit Free Press.

THE SINGLE ELECTION BILL.

an Opinion by William Vanamee. E.q.-It Gives some Comfort to the

The following opinion has been submitted by Wm. Vanamee, E.q., to the ling last night, and decided to grant

single election bill: The question submitted to me for and effect of the recent act of the Legislature providing for the holding of municipal elections in the city of Middletown in the fall instead of

in the spring.
After a full consideration of the question I have formed the following conclusions:

The Legislature cannot, in express terms, make a valid extension of the terms of a city officer. Such an offi-cer must be elected by the people under that provision of the constitution (Art. X., Section 2) which de-clares that all city officers 'shall be elected by the electors of such

cities. In construing similar provisions in the Constitution of 1846 the Court of Appeals has repeat day held that an act of the Legislature expressly extending (for a new and definite term) the terms of officers then in office is an attempted exercise of the power of appointment by the Legislature,

and is, therefore void. The act in question does not, however, assume to expressly extend the terms of the old officers of the city of Middletown. It provides that officers of the city holding office at the time of the passage of the act shall hold office until their successibility. sors are chosen and qualified, and there is a further provision authorizing the Mayor to appoint in case of vacancy by reason of the expiration of term, or otherwise. It is extremely doubtful whether the latter provision is operative, for it is subect to the criticism that if the legislature cannot itself extend the term of an officer, whose time has expired, it cannot designate any other person

to do 80. But the other provision relating to the holding of ffine by the city of-ficers until their successors are chosed, is undoubtedly valid. It is simply a repetition of the general provisions of law applicable to this subject at the time the new constitution was adopted. The entire subject is regulated by chapter 681 of the laws of 1892, known as the public officers' law. This law is express y reaffirmed and readopted under the provisions of the new constitution (Art. 1, Section 16) and is in no sense repugnant to the constitution. In this act (Art. 1, Sec ion 5) it is provided that "every officer except a whose term is fixed by the constitution, having duly extered on the duties of his office, thall, unless the ctfice shall terminate or be abolished hold over and continue to discharge the duties of his office, after the expiration of the term for which he shall have been chosen, until his successor shall be chosen and quali-

Under the public officers' law the old officers of the city of Middletown can discharge the duties of their office until their successors are chosen with the same validity a d ffect as though the period were embraced in their original term of office. No doubt can be cast upon the validity of their official acis They perform their duties not by virtue of any express extension of term conferred by the local act, but by victue of the general provisions of law applicable to the suit et.

The legislature has the undoubted power to change the date of a municipal election. If, incidentally to the exercise of this power, the change results in the old officers holding over until their successors are chosen and qualified under the new eystem provided for, the condition thus created does not seem to be open to any constitutional objection. It is perhaps unnecessary to add that in examining this question I have simply sought to arrive at the correct legal conclusion, irrespective of and wholly unswerved by the personal and political questions

involved R spectfully submitted, WILLIAM VANAMEE.

ICE PACKED FERRY SLIPS. Hudson River Ferry Boats Greatly Bothered By Ice in the New York

The strong northwest wind pried up such great quantities of ice, yesterday, in the ferry slips on the New York side of the Hudson that the boats had great difficulty in making landings. The boats can so irregularly that the evening trains from New York were all delayed and passengers on some of the trains to the

city were several hours in crossing

the river. Much difficulty was experienced by milkmen in getting their supplies from the depots on this side of the river and many families were without milk or cream for their breakfast coffee.

Many of the trains from New York, this morning, were an hour or more lite on account of the detention caused by the ice.

The Andersons Not In It.

The Liberty Gazette says three brothers were candidates for Supervisors in Sullivan County this spring. They were O. B. Anderson, of Calliccon, Elij th Anderson, of Delaware, and George H. Anderson, of Fremont. They are all Republicans and are brothers of the well known Democratic lawyer, John F. Anderson.

The late Isaac Anderson, who was County Judge of Sullivan County. was also a brother. All of the brothers failed of election this spring.

GRATIFYING RESULTS.

NTERESTING EXPERIMENTS WITH THE NEW STOMACH REMEDY-

Not a Patent Medicine, Su! a Safe Cure for all forms of Indigestion.

The results of recent investigation, have established beyond question, the great value of the new preparation for indigestition and stomach: it is composed of the digestive acids, pepein, bismuth, Golden Beal and similar etomachies, prepared in the form of 20 grain lozenges, pleasant to the taste, convenient to carry when traveling, harmless to the most delicate stomach, and probably the salest, most effectual cure yet discovered for indigestion, sour stomach, loss of appetite and flesh, nausea sich headaches, palpitation of hears, and the many symptoms arising from imperfect digestion of food. They care because they cause oughly digested before it has time to sour, ferment and poison the blood and nervous system.

Judge Frank Ives, of District Court of Orockston, Minn., says: For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit, with few exceptions, I have not been so free from indigestion in twenty-five years.

Geo. W. Roosevelt, U. S. Consul to Brussels, Belglum: Staart's Dyspepsia Tablets, safe, pleasant to take convenient to carry, give keen appe-

tite, perfect digestion. Mr. W. D. Tomlin, Mechanical Ecgineer. Duluth, Minn: One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength.

O. E. Ranzom, Hustonville, Ky. I was distressed and annoyed for two years with throwing up food, oiten two or three times a day; had no certainty of retaining a meat if I ate one. Four boxes of the tablets from my druggists, have fully cured me. I find them pleasant to take, convenient to carry.

Rev. G. D. Brown, Mondovi, Wis.: The effect of Stuart a Dispensia Tablets is simply marvellous; a quite hearty dinner of broiled beef steak causes no distress since I began

their use. Over six thousand people in the state of Mich. alone in 1894 were cured of stomach troubles by Stuart's Drepepsia Tablets.

Full sized packages may be found at all dauggists at 50c., or sent by mail on receipt of price from Stuart Co., Marshall, Mich.

MEN OF ALL AGES

have felt the need of some agent to tone and and stimulate their vital powers. Men lose their natural vitality from are, disense and youthful abuse; while again the strong nervous strain required in business-life turns the nerve-energy away from its natural function. Dr Perie's Vi-Vi Pilts is a remedy that will correct all sexual weakness be it due at any cause. They give immediate and permanent satisfactory results.
